Northeast Australia develops very slowly. Farmers grow maize in the old-fashioned way. The maize crop in Queensland this year is a record one. Canning pineapples is becoming an important industry in Queensland. Coal mining is growing steadily.

The readers of this paper will be pleased to learn that there is a cure for the disease that causes the loss of sight. It is called "Cataract." It is the only positive cure known to the medical fraternity. Cataract is a constitutional disease. Requires a constitutional treatment. Halls' Cataract Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring nature to doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

## TURNED THE TABLES

GOVERNOR HAD LAUGH ON THE WOULD-BE JOKERS.

Fact That Guest "Knew Champagne and Had No Prejudices Against It" Disconcerted Their Shrewdly Laid Plans.

The government of the new territory of Nevada was an interesting menagerie. Gov. Nye was an old and seasoned politician from New York—a politician, not statesman. He had white hair; he was in fine physical condition; he had a winningly friendly face and deep lustrous brown eyes that could talk as a native language the tongue of every feeling, every passion, every emotion. His eyes could out-talk his tongue, and this is saying a good deal, for he was a very remarkable talker, both in private and on the stump. He was a shrewd man; he generally saw through surfaces and perceived what was going on inside without being suspected of having an eye on the matter.

When grown-up persons indulge in practical jokes, the fact gauges them. They have lived narrow, obscure and ignorant lives, and at full manhood they still retain and cherish a job lot of left-over standards and ideals that would have been discarded with their boyhood if they had then moved out into the world and a broader life. There were many practical jokes in the new territory. I do not take pleasure in exposing this fact, for I liked those people, but what I am saying is true. I wish I could say a kinder thing about them instead—that they were burglars or hat-rack thieves, or something like that, that wouldn't be utterly uncomplimentary. I would prefer it, but I can't say those things; they would not be true. These people were practical jokers, and I will not try to disguise it. In other respects they were plenty good-enough people; honest people, reputable and likable. They played practical jokes upon each other with success, and got the admiration and applause and also the envy of the rest of the community. Naturally, they were eager to try their arts on big game, and that was what the governor was. But they were not able to score. They made several efforts, but the governor defeated these efforts without any trouble and went on smiling his pleasant smile as if nothing had happened. Finally the joker chiefs of Carson City and Virginia City conspired together to see if their combined talent couldn't win a very uncomfortable place; the people were laughing at them instead of at their proposed victim. They banded themselves together to the number of ten and invited the governor to what was a most extraordinary attention in those days—pickled oyster stew and champagne—luxuries very seldom seen in that region, and existing rather as fabrics of the imagination than as facts.

The governor took me with him. He said disparagingly:  
"It's a poor invention. It doesn't deceive. Their idea is to get me drunk and leave me under the table, and from their standpoint this will be very funny. But they don't know me. I am familiar with champagne and have no prejudices against it."  
The governor was serene, sober, comfortable, contented, happy and sober, although he was so full that he couldn't laugh without shedding champagne tears. Also at that hour the last joker joined his comrades under the table, drunk, to the last perfection. The governor remarked:  
"This is a dry place, Sam. Let's go and get something to drink and go to bed."—North American Review.

**General Tears.**  
A few days ago the president gave audience to a prominent westerner who had come in the interest of a pardon application. This man presented his case eloquently. When he had finished, the president presented the other side, and in doing so showed very conclusively that the pardon should not be granted.

"Do you not agree with me?" he asked his visitor after he had announced his own conclusion.  
"Yes, Mr. President, I am bound to say I do, now that you have gone into the case so fully," was the reply.  
"I'm very glad," said the president. "And I'm very glad you didn't cry, Mr. —" Women and generals always cry when I turn down their applications for pardons or for promotions!"—Ridgway's.

**A "Hoodoo Dog."**  
Another victim of "Rosenbaum, the hoodoo dog of the levee," was added to-day, when Will Clifford, a young colored man, dropped dead suddenly after the "hoodoo dog" had been following him around for sometime. According to the negroes on the water front, the death of Clifford brings the total number of Rosenbaum's victims up to eight.

Clifford is said to have incurred the enmity of the dog during the recent flood, when he struck the animal with an oar.

Rosenbaum is a yellow mongrel, which appeared on the levee front sometime ago. It is now hard to get negroes to work on the wharves, so terrorized are they.—Baltimore American.

**The Only Apprehension.**  
"Do you object to the increase of pay for your members of congress?"  
"No," answered Farmer Cortossel. "Not unless he gets to thinkin' he ought to make more speeches so's to earn the money."

## SEEDING COMMENCED IN WESTERN CANADA.

The Prospects for a Large Acreage to Be Sown in Wheat.

St. Paul, April 24, 1907.—Word has been received at the office of the Canadian government in St. Paul that seeding has commenced at various points throughout Manitoba, Saskatchewan and Alberta.

The heavy snowfall during the past winter has left the ground in splendid shape for successful seeding operations. The fine weather of the past few days has taken much of the frost out of the ground and during next week there will scarcely be a district in which the seed is not being operated. The most optimistic conditions exist and in all districts the farmers are busy getting things in shape. There will be a very large acreage sown in spring wheat, oats and barley. At many points throughout the three provinces the newcomers are busy unloading their stock and effects, working night and day in order to get on their farms and become active agencies in the effort to make the year 1907 the banner year in grain producing in Western Canada. As compared with districts many hundred miles further south than this, it will be seen that Western Canada ranks amongst the first in the line of seeding operations for the present year. It is safe to say that farmers who get in their crop before the 20th or 24th of May, will receive magnificent returns. A number of those coming in this spring, who had not their land prepared last fall, will break up enough land to get in a crop of oats and barley and probably some flax. This, together with the vegetables they will plant, will give them ample food for themselves and stock during the coming summer and winter. These early seeding operations are not confined to one district, but are spread over a country 900 miles long by 400 miles in width.

The agents of the Canadian Government, located at different points throughout the United States, are busy giving information regarding the many new districts that are being made available for settlers. Low railway rates, information and literature are given on application to the agent, whose name appears in advertisement elsewhere in this paper.

**Breaking It to Him Tactfully.**  
"George," she said, when her hubby returned from the office, "I'm afraid baby must have swallowed some money."

"Good gracious!" he cried, "don't you know whether he did or not?"  
"No, but it's the only way I can account for the disappearance of the weekly allowance you forgot to give me this morning."

Then she got it—with a little conscience food addition.

### FAMILY'S SKIN TROUBLES.

Eczema, Heat Rash, and Sculp Affections Afflict Different Members, But Cuticura Cures Them.

"My wife had eczema for five or six years. It was on her face and would come and go. We thought we would give the Cuticura Remedies a trial. We did so and she has never had a sign of eczema for four years. I myself used Cuticura Soap and Cuticura Ointment some time ago for falling hair. I now have a very heavy head of hair. We used Cuticura Remedies for our baby, who was nearly bald when young. She has very nice hair now. She is very fleshy, and we had so much trouble with heat that we would bathe her with Cuticura Soap and then apply Cuticura Ointment, it would dry the heat up so much quicker than anything else.
